

REMARKS

The specification has been amended to correct a capitalization error and a number of reference-symbol errors. More particularly, a capitalization error has been corrected on page 32. Reference symbol "130" was previously used for both getter-exposing openings and an insulating focus-isolating layer. This error has been corrected by changing reference symbol "130" for the insulating focus-isolating layer to "131" at each occurrence in the specification. Also, in the last paragraph on page 126 of the specification, reference symbol "130" has been corrected to "136" in accordance with the previous use of reference symbol 136 in that paragraph.

Entry of the present amendment will not entail materially added work on the Examiner's part. No more than a cursory review of the record will be needed. This amendment, along with the accompanying Amendment to Drawings, should therefore be entered.

Please telephone Attorney for Applicant(s) at 650-964-9767 if there are any questions.
